## Experience

### Web Soft Valley

Frontend Developer Intern

Bhopal

04/2024 - 07/2024

As an enthusiastic and skilled React.js developer, I recently completed a 3-month internship, where I gained hands-on experience in developing and optimizing dynamic web applications. My role involved creating responsive user interfaces using React, implementing advanced state management with Redux, and ensuring seamless navigation with React Router. I collaborated closely with a team of developers and participated in code reviews, which sharpened my ability to write clean, efficient code. I focused on improving the user experience by implementing custom components, optimizing performance, and ensuring cross-browser compatibility. I also played a key role in integrating third-party APIs, managing authentication flows, and maintaining secure coding practices. My ability to adapt quickly, solve complex problems, and work effectively within a team allowed me to contribute meaningfully to the projects I worked on. I am passionate about learning and continuously improving my skills, which I demonstrated by actively participating in knowledge-sharing sessions and staying updated with the latest React.js trends and best practices. Gained hands-on experience with version control systems like Git and postman tools also.

## Projects

### Job Portal Web Application, MERN

<https://satisfiedjob.com>

Worked as a Frontend Developer, I focused on creating a dynamic and responsive user interface using React.js and Tailwind CSS. My responsibilities included:

- **Building User Interfaces:** I developed the dynamic job listing pages, search results, user profile sections, and application forms integrating them with backend APIs with our team developers.
- **Responsive Design:** I used Tailwind CSS and React.js to make sure the website looked great and functioned smoothly on all devices, from desktops to smartphones.
- **Enhanced Functionality:** Leveraged JavaScript to add interactivity, such as real-time job search filters and application forms that provided instant feedback to users.
- **Integration with Backend:** Collaborated with the backend team to connect the frontend with APIs, ensuring data like job listings and user profiles were displayed accurately and updated in real-time.

### Gym Website, Next.js

<https://fitness-icon-gym-website.vercel.app>

The Gym Website is a sleek and modern web application designed for fitness enthusiasts and gym owners. It offers a user-friendly platform where users can explore workout plans, book classes, and track their progress.

- **Designing the User Interface:** Created a visually appealing and easy-to-navigate website using Next.js and Tailwind CSS, ensuring a seamless experience for users.
- **Responsive Design:** Ensured the website was fully responsive, providing a consistent and smooth experience across all devices, from desktops to mobile phones.
- **Enhancing Interactivity:** Used JavaScript to add interactive features, such as real-time class booking and progress tracking, making the site more engaging for users.
- **Optimizing Performance:** Implemented best practices to optimize the website's speed and performance, ensuring quick load times and a smooth user experience.

## Skills

HTML5, CSS3, JavaScript, ReactJS, Tailwind CSS, C++, Linear Data Structure & Algorithm(DSA)

## Education

### Sagar Institute of Research & Technology (SIRT)

Masters of Computer Applications | CGPA: 8.2 / 10

Bhopal

2023 - 2025

### Government Hamidiya Arts & Commerce College

Bachelor of Computer Applications | Percentage: 73.8 / 100

Bhopal

2020 - 2023

## Courses & Certificates

Full Stack Web Development (MERN) — Sheryians Coading School, Bhopal

(2022-2023)

## Key Achievements

### Top 10 Finalist - State Level Codebite Hackathon:

Secured a position in the top 10 among talented developers in a state-level web development hackathon. Demonstrated strong problem-solving skills and creativity while working on real-world projects under tight deadlines. Gained valuable experience collaborating with team developers, enhancing my coding abilities, and learning from industry experts.

### "Senior vs Junior" Coding Competition:

Demonstrated strong collaboration and communication skills while working alongside senior and junior developers in a competitive coding environment. Gained valuable experience in team dynamics, problem-solving under pressure, and completing tasks within deadlines. This competition helped strengthen my ability to contribute effectively to team-based projects and enhanced my adaptability in challenging situations.

### LinkedIn Engagement:

Engaged with a professional network of over 4,000 followers by regularly sharing insights, experiences, and industry-related content. Skilled in fostering meaningful connections, encouraging knowledge exchange, and contributing to professional discussions in the tech community.
